COLDGUARD® GEN II SWING DOOR

ADDITIONAL PRODUCT BENEFITS

- ✓ **SUPERIOR INSULATION**
R-Value of 4" cooler doors: 28
R-Value of 4" freezer doors: 32
R-Value of 6" doors: 48
- ✓ **PERFECT SEAL EVERY TIME**
Magnetic vinyl push-in gaskets come standard on all doors to ensure a strong seal.
- ✓ **OPEN WITH EASE**
Self-lubricating, cam-lift hinges reduce friction when opening the door and eliminate need for sloped floors.
- ✓ **EVENLY INSULATED**
Each door is filled with non-CFC polyurethane, ensuring uniform insulation everywhere on the panel.
- ✓ **FRP IS LESS THERMALLY CONDUCTIVE**
Our panels are constructed with FRP, which is less thermally conductive than aluminum, but equally as durable.
- ✓ **ENERGY EFFICIENT HEATER WIRES**
Freezer doors have energy efficient 115V perimeter to prevent moisture/ice build up.
- ✓ **VARIETY OF FINISHES**
We offer a variety of finishes to meet a wide range of customer specifications.
- ✓ **SAFETY LATCH FEATURE**
Our latch lets users open the door, even when padlocked externally.

DOE COMPLIANT

Products can be customized to meet all DOE specifications.

HAND-CRAFTED & AMERICAN MADE

Each door is meticulously crafted to meet your precise specs and is backed by a 5-year warranty.
